Mr. Duckett:

The attached two messages deal with the possibility that the Air Force will encrypt US telemetry and are self explanatory. I am really worried about this and feel something should be done to get the Air Force to change its plans. If you agree, there are several approaches which might be taken. You might contact Foster directly since he initiated the order, or you might raise it as an agenda item on the Verification Panel, or you might ask Stoertz to take it up through the SALT monitoring group.

"AIR FORCE REGULATION 205-7 DATED 18 MAY 1971 REQUIRES THAT ANY  
TELEMETERED DATA THAT IS CLASSIFIED AFTER RECEIPT IN REDUCTION BE  
ENCRYPTED BEGINNING IN 1974. THE ORIGINAL ACTION INITIATING THIS  
APPARENTLY STARTED FROM A MEMORANDUM OF APRIL 1967 SIGNED BY  
DR. JOHN FOSTER."

TO: [REDACTED]

25X1A

Please hand carry the following message to [REDACTED]

1. Today [REDACTED] mentioned to me that he had heard from you that SAMSO plans to encrypt telemetry on all US missile tests by 1974. I am concerned about whether this might be a violation of Article 12, Paragraph 3 of the proposed ABM treaty which says, "Each Party undertakes not to use deliberate concealment measures which impede verification by national technical means of compliance with the provisions of this Treaty."

25X1

3. I would like to raise this matter with Carl Duckett to see if it should be brought to the attention of higher authority, but before doing so I would like to confirm that the action is indeed to be taken by SAMSO. I would also like to identify a specific directive spelling out what is planned.
4. Could you please respond to this as soon as possible.

David S. Brandwein
